## SKIN HYDRATION TREATMENT

---

This treatment delivers long-lasting moisture deep into the skin. They improve skin quality by enhancing hydration, texture, and elasticity, making the skin appear smoother and more radiant.

## REJURAN (SALMON DNA)

---

Rejuran is a polynucleotide-based treatment that promotes skin regeneration and healing. Rejuran Healer works on overall skin health, stimulating collagen production and improving skin elasticity, hydration, and texture.

## PLATELET RICH PLASMA (PRP)

---

PRP therapy uses your body's own platelet-rich plasma to stimulate natural healing and collagen production in the skin. Used for facial rejuvenation, acne scars, and even hair restoration, offering natural and gradual improvements over time.

## AQUA GOLD (MESOTHERAPY)

---

Aqua Gold is a nice channeling system that uses ultra fine, 24 karat gold needles to deliver a customised cocktail of skin-loving ingredients directly into the dermis, unlike traditional microneedling, aquagold is painless, with no downtime, making it the ultimate treatment for glowing, rejuvenated skin. Active ingredients such as mesotherapy serums, anti-wrinkle solutions, and skin hydrating boosters can be infused into the skin.
